

Modernisation of Processes

ADETEF's pool of experts in budgetary reform, public management and financial policies offers partner countries services and expertise in the following areas:

- Budget Procedures:

Annual and medium-term budget planning, programme budgeting, objective-based budgeting, zero-based budgeting, etc.

- Budget Implementation and Accounting:

Modernisation of public expenditure circuits, implementation of international accounting standards, drafting of charts of accounts, debt management, cash management, etc.

- Financial Control:

Establishment of Public internal financial control (PIFC), internal accounting and budgetary control, programme audits, etc.

- Financial Information Systems:

Public finances resource planning software, electronic procedures, etc.
